Total Work Experience

4 Years

Company 3: Litera microsystems

Period: June 2021 to Present

Litera Transact

      Litera Transact helps legal teams manage all transactions and simplify workflows across many different deal types. See the benefits our customers are experiencing in these practice areas.

Company 2: 63 Moons Technologies   **Period:** June 2020 to June 2021

Voice Logger

A Centralised Software-based Call Management System & Recording with cloud-based Archival & Retrieval. Provides centralised software-based recording of all telephonic business interactions, be it transactions, service or sales calls. It helps in achieving mandatory regulatory compliance and fraud prevention by ensuring complete traceability of the telephonic conversations

Company 1: Cyber Infrastructure P Ltd   **Period:** June 2018 to May 2020

GlampOasis

It is an ALL IN ONE package for hotel booking and management with a leading powerful backend admin panel to manage discount coupons, orders, customers, invoicing and much more. Created with third party APIs Sharetribe.

SPEKTD

This Application is designed for lighting designers who are sick of spending hours updating and checking spreadsheets. By SPEKTD lighting designers can use specialised tools for their specifications as well as their drawings. It speeds up your dull admin work, and you spend more time focusing on improving peoples' lives with creative lighting solutions. At SPEKTD manufacturers can upload their requirements and Designers can create products accordingly

OnsiteIQ (Admin Panel)

OnSiteIQ bridges the gap between construction and artificial intelligence, by building a world-class platform for owners and developers. We've Created a strong Admin panel for this site to upload document and manage all of the activities at the applications

Certifications:

- MTA Certified in Software Programming.
- Training in Software Development from Infocentroid.

Other Achievements:

- Received star Debutant & Star performer awards in the organisation.
- Recognized as a valuable employee for the company as per client reviews.
- Received numerous client appreciations.
- Created ERP System for University during graduation.
